Arkansas — A few thinder showers in the extreme could east this afternoon; otherwise clear to partly, cloudy through Sunday. Cooler onlight in southern Sunday.

57TH YEAR VOL: 57 - NO. 273

HOPE, ARKANSAS, SATURDAY, SEPTEMBER 1, 1956

.The Natural Gas Story...

Ark.-Mo. Gas Stephens' No. 2 **Output** Utility Venture

(Eight of a Series) State Capital Bureau

LITTLE ROCK, (Special) - Arkansas-Missouri Power Co., which sells gas as well as electricity, has its operating headquarters in Blytheville but for several years its fiscal policies were determined in Little Rock by or in com-pliance with the wishes of W.R. Stephens, president of W. R. Stephens Investment Co.

Since December 1954, Stephens company has been the largest single owner of common stock of Arkansas Louisiana Gas Co. Arkansas-Missouri Power Co. was the second utility company to attract Mr. Stephens' attention. He already was owner of the common stock, and thus controll-

ed, the Fort Smith Gas Co. His initial interest in Arkansas-Missouri Power Co. was directed toward the possibilities of profits from trading in its stock. That in volved making it more attractive to investors—just as today he is concentrating his efforts to improve the market for, and raise the price of, Arkansas Louisiana Gas Co. stock.

In boath instances, with the Cooperation of the Public Service Commission in several administrations, his efforts succeeded.
Reports came to the Public Service |Commission from unofficial sources that Stephens someilmes sold Ark-Mo stock under an arrangement whereby he retained voting rights. He never was on the Board of Directors himself but he kept one or more representatives on it for several years. Epping was sentenced today to opened up for Arkansas-Missouri probation for his part in the Mil- most will get the title of "Mr. Power Co., it could take advant- lion-dollar scandal in the state Lazy." age of them-whereas the Arkan-auditor's office.

was busy with gas installations quiring 300 to 400 ships entering for Ark-Mo, Stephens also got in and leaving Japanese ports each some licks for his Fort Smith Gas month. Cost of a make-believe realm runs into a right royal sum of pany to furnish gas service at two municipalities virtually at Ark-municipalities virtually at Ark from the account books on "King and I." The film figures at a cool \$6,500,000. The following are some of the comparatives that set the film aside as a cost colossus:

The amount of lumber used would build a tract of 2,000 houses.

The plaster used would plaster buy 51 per gook (he has instead of planned in the six-year program, and a the end of six years of 110,000 tons is "woefully inadequate" and tons is "woefully inadequate" and includes a large number of ships and aircraft already obsolete.

Stephens arranged to supply gas for them by tapping the pipeline of the Mississippi River Fuel company which build a tract of 2,000 houses.

The plaster used would plaster buy 51 per gook (he has instant) and 250 given the against the 180 per gook (he has instant).

The plaster used would plaster buy 51 per cent (he has since sold and 250 aircraft against the 180 three city block-long sidewalks.

The paint would finish 150 houses.
Scenic art amounted to enough for background of 50 New York stage shows, or enough canvas to make 10,000 convertible tops.

Cities Service which is a holding company and was ordered by the FPC to get rid of the shares.

Mississippi River Fuel loaned stready and willing to join other companies in financing Egypt's Aswan Dam project, a Fint to the purchase price and signed Aswan Dam project, a Fiat Stephens' note for \$20,000,000 se-spokesman said last night. Enough metal and steel to make two automobiles.

Enough tiles to cover approximately two city blocks in length.

Trees and plants used could cover a park area of four city blocks.

Enough gold-plated mirroring to finish 1,000 lighting fixtures.

Stephens' note for \$20,000,000 secured by the stock. The note is held by a New York City bank. Part of the loan was assumed a year later by a New York securities firm. Mississippi River Fuelties firm. was busy with gas installations quiring 300 to 400 ships entering for Ark-Mo, Stephens also got in and leaving Japanese ports each some licks for his Fort Smith Gas month. Cost of a make-believe realm runs into a right royal sum of pany to furnish gas service at two municipalities virtually at Ark-municipalities virtually at Ark from the account books on "King and I." The film figures at a cool \$6,500,000. The following are some of the comparatives that set the film aside as a cost colossus:

The amount of lumber used would build a tract of 2,000 houses.

The plaster used would plaster buy 51 per gook (he has instead of planned in the six-year program, and a the end of six years of 110,000 tons is "woefully inadequate" and tons is "woefully inadequate" and includes a large number of ships and aircraft already obsolete.

Stephens arranged to supply gas for them by tapping the pipeline of the Mississippi River Fuel company which build a tract of 2,000 houses.

The plaster used would plaster buy 51 per gook (he has instant) and 250 given the against the 180 per gook (he has instant).

The plaster used would plaster buy 51 per cent (he has since sold and 250 aircraft against the 180 three city block-long sidewalks.

The paint would finish 150 houses.
Scenic art amounted to enough for background of 50 New York stage shows, or enough canvas to make 10,000 convertible tops.

Cities Service which is a holding company and was ordered by the FPC to get rid of the shares.

Mississippi River Fuel loaned stready and willing to join other companies in financing Egypt's Aswan Dam project, a Fint to the purchase price and signed Aswan Dam project, a Fiat Stephens' note for \$20,000,000 se-spokesman said last night. Enough metal and steel to make two automobiles.

Enough tiles to cover approximately two city blocks in length.

Trees and plants used could cover a park area of four city blocks.

Enough gold-plated mirroring to finish 1,000 lighting fixtures.

Stephens' note for \$20,000,000 secured by the stock. The note is held by a New York City bank. Part of the loan was assumed a year later by a New York securities firm. Mississippi River Fuelties firm. Mississippi Riv yould completely fill the ground ens' ownership of that company's have "ways and means" to take floor of a medium-size department stock has varied in extent from part in the high dam project on store.

Stock has varied in extent from part in the high dam project on year to year. In 1950, his invest. The Nile with other firms. More than 10,000 different color ment firm had 9,747 shares and combinations were used.

Amount of dye used to dip fabrics would dye about 3,000 bolts of Stephens' name does not appear to year. In 1950, his investment firm had 9,747 shares and Guy Freeling had 800; in 1951, old Frank Watt and a 17-year-old companion, Ronald Puleston, were charged today with robbing Watt's

was busy with gas installations quiring 300 to 400 ships entering for Ark-Mo, Stephens also got in and leaving Japanese ports each some licks for his Fort Smith Gas month. Cost of a make-believe realm runs into a right royal sum of pany to furnish gas service at two municipalities virtually at Ark-municipalities virtually at Ark from the account books on "King and I." The film figures at a cool \$6,500,000. The following are some of the comparatives that set the film aside as a cost colossus:

The amount of lumber used would build a tract of 2,000 houses.

The plaster used would plaster buy 51 per gook (he has instead of planned in the six-year program, and a the end of six years of 110,000 tons is "woefully inadequate" and tons is "woefully inadequate" and includes a large number of ships and aircraft already obsolete.

Stephens arranged to supply gas for them by tapping the pipeline of the Mississippi River Fuel company which build a tract of 2,000 houses.

The plaster used would plaster buy 51 per gook (he has instant) and 250 given the against the 180 per gook (he has instant).

The plaster used would plaster buy 51 per cent (he has since sold and 250 aircraft against the 180 three city block-long sidewalks.

The paint would finish 150 houses.
Scenic art amounted to enough for background of 50 New York stage shows, or enough canvas to make 10,000 convertible tops.

Cities Service which is a holding company and was ordered by the FPC to get rid of the shares.

Mississippi River Fuel loaned stready and willing to join other companies in financing Egypt's Aswan Dam project, a Fint to the purchase price and signed Aswan Dam project, a Fiat Stephens' note for \$20,000,000 se-spokesman said last night. Enough metal and steel to make two automobiles.

Enough tiles to cover approximately two city blocks in length.

Trees and plants used could cover a park area of four city blocks.

Enough gold-plated mirroring to finish 1,000 lighting fixtures.

Stephens' note for \$20,000,000 secured by the stock. The note is held by a New York City bank. Part of the loan was assumed a year later by a New York securities firm. Mississippi River Fuelties firm. Mississippi Riv yould completely fill the ground ens' ownership of that company's have "ways and means" to take floor of a medium-size department stock has varied in extent from part in the high dam project on store.

Stock has varied in extent from part in the high dam project on year to year. In 1950, his invest. The Nile with other firms. More than 10,000 different color ment firm had 9,747 shares and combinations were used.

was busy with gas installations quiring 300 to 400 ships entering for Ark-Mo, Stephens also got in and leaving Japanese ports each some licks for his Fort Smith Gas month. Cost of a make-believe realm runs into a right royal sum of pany to furnish gas service at two municipalities virtually at Ark-municipalities virtually at Ark from the account books on "King and I." The film figures at a cool \$6,500,000. The following are some of the comparatives that set the film aside as a cost colossus:

The amount of lumber used would build a tract of 2,000 houses.

The plaster used would plaster buy 51 per gook (he has instead of planned in the six-year program, and a the end of six years of 110,000 tons is "woefully inadequate" and tons is "woefully inadequate" and includes a large number of ships and aircraft already obsolete.

Stephens arranged to supply gas for them by tapping the pipeline of the Mississippi River Fuel company which build a tract of 2,000 houses.

The plaster used would plaster buy 51 per gook (he has instant) and 250 given the against the 180 per gook (he has instant).

The plaster used would plaster buy 51 per cent (he has since sold and 250 aircraft against the 180 three city block-long sidewalks.

The paint would finish 150 houses.
Scenic art amounted to enough for background of 50 New York stage shows, or enough canvas to make 10,000 convertible tops.

Cities Service which is a holding company and was ordered by the FPC to get rid of the shares.

Mississippi River Fuel loaned stready and willing to join other companies in financing Egypt's Aswan Dam project, a Fint to the purchase price and signed Aswan Dam project, a Fiat Stephens' note for \$20,000,000 se-spokesman said last night. Enough metal and steel to make two automobiles.

Enough tiles to cover approximately two city blocks in length.

Trees and plants used could cover a park area of four city blocks.

Enough gold-plated mirroring to finish 1,000 lighting fixtures.

Stephens' note for \$20,000,000 secured by the stock. The note is held by a New York City bank. Part of the loan was assumed a year later by a New York securities firm. Mississippi River Fuelties firm. Mississippi Riv yould completely fill the ground ens' ownership of that company's have "ways and means" to take floor of a medium-size department stock has varied in extent from part in the high dam project on store.

Stock has varied in extent from part in the high dam project on year to year. In 1950, his invest. The Nile with other firms. More than 10,000 different color ment firm had 9,747 shares and combinations were used.

Amount of dye used to dip fabrics would dye about 3,000 bolts of Stephens' name does not appear to year. In 1950, his investment firm had 9,747 shares and Guy Freeling had 800; in 1951, old Frank Watt and a 17-year-old companion, Ronald Puleston, were charged today with robbing Watt's
